

INTERIM REPORT

**(NINE MONTHS)
30 SEPTEMBER 2010**

GraceKennedy Limited

INTERIM REPORT TO OUR STOCKHOLDERS

The Directors present the unaudited results of the Group for the nine months ended September 30, 2010.

The Group achieved Revenues for the nine month period of \$41,507 million (2009: \$43,415 million), a decrease of \$1,908 million or 4.4%. The Net Profit Attributable to owners of the Company was \$1,549 million compared with \$1,822 million for the corresponding period of 2009, a decrease of 15.0 %. This represents earnings per stock unit of \$4.70 (2009: \$5.53).

GKFoods had a challenging third quarter as both revenues and profits were down when compared with the same period last year primarily due to reduced consumer demand in Jamaica. We have now streamlined operations at our new Distribution Centre and are well poised to deliver improved service levels and new products to our customers.

In the International market, Grace Foods UK's performance improved when compared with the corresponding period last year, but is still below our expectations due to the recessionary conditions in that market. The rest of the international markets, although growing in the first six months of the year, showed declines in the third quarter in the central and northern Caribbean. The southern Caribbean has fared better, benefitting from the impact of our launch of Grace Nurishment, a milk based meal supplement in Trinidad, Barbados and Guyana. Business in North America has expanded with exceptional growth in Coconut water, particularly in Canada.

In September Grace Food Processors Meat Division won The Bureau of Standards National Quality Award 2010, sectional prize in manufacturing, for excellence in business results.

Revenue growth for the GraceKennedy Financial Group was impacted by continued weak demand for loans, reduced interest rates on investments and foreign exchange losses due to the appreciation of the Jamaican dollar. Despite this, the Money Services segment performed creditably with revenues for the quarter increasing over the prior year.

The Banking and Investments segment recorded improvements when compared with prior year. First Global Bank Limited (FGB) continues to grow its deposit and loan portfolios respectively over 2009 and First Global Financial Services Limited (FGFS) recorded an increase in net interest income over 2009. In August, Maureen Hayden-Cater was appointed President of FGB. Mrs. Hayden-Cater is an experienced banking executive with over 22 years in the banking industry.

Though the Insurance segment continued to face challenges over the period, due primarily to lower interest rates, Allied Insurance Brokers Limited (AIB) exceeded prior year revenues and profits. Jamaica International Insurance Company Limited (JIIC), in addition to maintaining its A.M. Best B++ rating, increased premium income and underwriting performance over the same period in 2009. JIIC also expanded its network during the quarter with the opening of its sixth branch in September, located inside Rapid True Value in Ocho Rios.

Thanks to my colleague directors, management and staff who continue to be dedicated to the efforts of the GraceKennedy Group in achieving our objectives in turbulent world conditions. We also wish to thank our customers, consumers, suppliers and all stakeholders for their continuing support as we reposition our businesses in response to our customers' needs.

A handwritten signature in black ink, appearing to read 'Douglas R. Orane', with a large, sweeping flourish underneath.

Douglas R. Orane
Chairman & Chief Executive Officer

INTERIM CONSOLIDATED FINANCIAL STATEMENTS QUARTER ENDED 30 SEPTEMBER 2010

Notes

1. Accounting Policies

(a) Basis of preparation

These financial statements have been prepared in accordance with and comply with International Financial Reporting Standards (IFRS), and have been prepared under the historical cost convention, as modified by the revaluation of certain fixed and financial assets.

The accounting policies followed in these interim financial statements are consistent with those used in the audited financial statements for the year ended 31 December 2009.

These financial statements are presented in Jamaican dollars unless otherwise indicated.

(b) Fixed Assets

All fixed assets are initially recorded at cost. Freehold land and buildings are subsequently shown at market valuation based on biennial valuations by external independent valuers, less subsequent depreciation of buildings. All other fixed assets are carried at cost less accumulated depreciation.

(c) Intangible Assets

Goodwill is recorded at cost and represents the excess of the value of consideration paid over the fair value of the net assets acquired. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Other intangible assets, which include computer software licences, brands, distribution channel agreements and policy contracts are recorded at cost and amortised over their estimated useful lives.

(d) Investment securities

The Group classifies its investments in debt and equity securities into the available-for-sale and loans receivable categories. Available-for-sale investments are subsequently re-measured at fair value. Unrealised gains and losses arising from changes in the fair value of these investments are recorded in the Capital and fair value reserve. Loans receivable financial assets are subsequently re-measured at amortised cost.

(e) Employee benefits

(i) Pension plan assets

The Group operates a defined benefit plan. The scheme is generally funded through payments to a trustee-administered fund as determined by periodic actuarial calculations.

The asset or liability in respect of defined benefit pension plans is the difference between the present value of the defined benefit obligation at the balance sheet date and the fair value of plan assets, together with adjustments for actuarial gains/losses and past service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method.

Actuarial gains and losses arising from experience adjustments, changes in actuarial assumptions and amendments to pension plans are charged or credited to income over the average remaining service lives of the related employees.

(ii) Other post-retirement obligations

Some Group companies provide post-retirement health care benefits, group life, gratuity and supplementary plans to their retirees. The entitlement to these benefits is usually based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment, using an accounting methodology similar to that for defined benefit pension plans. These obligations are valued annually by independent qualified actuaries.

(iii) Equity compensation benefits

The Group operates an equity-settled, share-based compensation plan. Share options are granted to management and key employees. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of non-market vesting conditions.

(f) Deferred taxation

Deferred income tax is provided in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Currently enacted tax rates are used in the determination of deferred income tax.

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

(g) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

(h) Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are included within bank and other loans in liabilities on the balance sheet.

(i) Segment reporting

The principal activities of the company, its subsidiaries and its associated companies (the Group) are as follows:

- *Food Trading* – Merchandising of general goods and food products, both locally and internationally; processing and distribution of food products; operation of a chain of supermarkets.
- *Retail and Trading* – Merchandising of agricultural supplies, hardware and lumber.
- *Banking and Investment* – Commercial banking; investment management; lease and trade financing; stock brokerage; pension management; property rental; mutual fund management.
- *Insurance* – General insurance and insurance brokerage.
- *Money Services* – Operation of money transfer services; cambio operations and bill payment services.

2. Contingent Liabilities

In 2000, a suit was filed jointly against a subsidiary, GraceKennedy Remittance Services Limited (“GKRS”) and a software developer by Paymaster (Jamaica) Limited (Paymaster), a bills payment company. The suit claimed damages arising out of the use by the subsidiary of certain software, to which Paymaster alleged it owned the copyright.

In the judgment handed down by the Supreme Court on April 30, 2010, the court ruled in favour of GKRS and the software developer on all counts. Accordingly, the Court awarded damages to be paid by Paymaster to GKRS and the software developer. On 10 June 2010, Paymaster filed an appeal against the decision of the Supreme Court in the Court of Appeal and applied for a stay of execution, pending the appeal. Based on the advice of our attorneys, management is of the opinion that Paymaster’s appeal is unlikely to succeed.
